WORK EXPERIENCE

Gheo Organics LLP *Delhi*

- Analyzed sales and marketing data for an organic products brand using SQL and Power BI to support digital marketing strategy decisions.
- Built reports and dashboards to track marketing performance metrics, translating raw data into actionable insights for the team.
- Contributed data-backed recommendations as part of a project on digital marketing strategies for organic product brands.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C, C++, SQL
Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap, Streamlit, WordPress
Backend: Node.js, Express.js, Flask, Django, REST APIs
AI/ML: TensorFlow, PyTorch, Scikit-learn, spaCy, OpenCV, NLP, AWS SageMaker
Databases: MongoDB, MySQL, PostgreSQL, BigQuery
Data & BI: SQL, Power BI
Cloud & DevOps: AWS (EC2, S3, IAM, RDS, CloudWatch), Docker, Kubernetes, Terraform, CI/CD, Linux, Git, GitHub, Postman

PROJECTS

- **Multi-label Movie Genre Classification from their posters** | Python, TensorFlow/Keras, CNN, Flask, Computer Vision
  Built a Flask web application enabling users to upload movie posters and receive predicted genres with confidence scores.

- ***AI Meeting Summarizer and Action Tracker*** **|** Python, FastAPI, React, OpenAI API, AWS
  Created an AI meeting assistant that converts transcripts into concise summaries, key decisions, and actionable tasks, reducing manual meeting-note preparation by 80% across 200+ test meetings.

- **Cloud-Based Document Intelligence System** | Python, AWS S3, AWS Lambda, Textract, Flask
  Built a serverless document-processing pipeline using AWS Textract and Lambda to extract structured information from invoices and PDFs, achieving 94% field-level extraction accuracy across 2,000+ documents.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science & Engineering (Data Science), Amity University, Noida 2022 – 2027
